The image shows a screenshot of the Midnight Commander (mc) terminal window. The title bar at the top reads "mc [eakainova@eakainova]:~/work/study/2024-2025/Операционные системы/os-intro -". Below the title bar, the current directory is shown as "~/work/study/2024-2025/Операционные системы/os-intro". The main content area displays the contents of a file named "package.json" located at "/home/eakainova/work/study/2024-2025-ные системы/os-intro/package.json". The file content is a JSON object with the following properties: "name" (os-intro), "version" (1.0.0), "description" (Git repo for educational purposes), "main" (index.js), "repository" (git@github.com:ekaterina-kainova/os-intro.git), "author" (ekaterina-kainova), "license" (CC-BY-4.0), and "config" (an object with "commitizen" and "path" properties). The terminal has a dark blue background with white text.

# Midnight Commander 4.0 extension file

# Warning: The structure of this file has been completely changed with the version 4.0!
#
# All lines starting with # or empty lines are ignored.
#
# IMPORTANT: mc scans this file only upon first use or after editing it using the
# mc "Edit extension file" command (F9-c-e). If you edit this file in any other way
# while mc is running, you will need to press F9-c-e and exit the editor for your
# changes to take effect, or exit mc and start it again.
#
# Section name can be anything with following exceptions:
#   there are two reserved section names:
#       mc.ext.ini
#       Default
#   special name pattern:
#       Include/xxxxx
# See below for more details.
#
# Section [mc.ext.ini] is mandatory. It contains file metadata.
# "Version" parameter is mandatory. It contains the file format version.
#
# Section [Default] is optional. It is applied only if no other match was found.
#
# Sections like [Include/xxxx] can be referenced as "Include=xxxx" from other sections.
# Section [Include/xxxx] can be located as before as after sections that point to it.
#
# Sections are processed from top to bottom, thus the order is important.
# If there are more than one sections with the same name in this file, the first
# section will be used.
#
# [Default] should be a catch-all action and come last.

A screenshot of the Midnight Commander file manager's menu system. The window title is "menu" with standard window controls. The menu is open, showing a list of options. At the top, it says "shell_patterns=0". The menu items include: a separator line, a list of macros starting with '#' (e.g., '%%' for 'The % character', '%f' for 'The current file'), a separator line, '+ ! t t' for 'Do something on the current file' with a sub-menu 'CMD=%{Enter command}', '+ t t' for 'Do something on the tagged files' with a sub-menu 'CMD=%{Enter command}', and 'for i in %t ; do'. At the bottom, a status bar shows numbered shortcuts: 1.Помощь, 2.Сохранить, 3.Блок, 4.Замена, 5.Копия, 6.Перем-тить, 7.Поиск, 8.Удалить, 9.МенюМС, 10.Выход.

Using Creative Commons Public Licenses

Creative Commons public licenses provide a standard set of terms and
conditions that creators and other rights holders may use to share
original works of authorship and other material, subject to copyright
and certain other rights specified in the public license below. The
following considerations are for informational purposes only, are not
exhaustive, and do not form part of our licenses.

    Considerations for licensors: Our public licenses are
    intended for use by those authorized to give the public
    permission to use material in ways otherwise restricted by
    copyright and certain other rights. Our licenses are
    irrevocable. Licensors should read and understand the terms
    and conditions of the license they choose before applying it.
    Licensors should also secure all rights necessary before
    applying our licenses so that the public can reuse the
    material as expected. Licensors should clearly mark any
    material not subject to the license. This includes other CC-
    licensed material, or material used under an exception or
    limitation to copyright. More considerations for licensors:
